A note on sausage:

We had originally said in our Hog Share documents that we would charge extra for sausage (as a processed item) and include miscellaneous cuts (feet, ears, heart, etc.) as part of the hog share payment. Since then, we have changed processors. Yoder Brothers includes sausage making (no extra charge) but charges extra for miscellaneous cuts. Since most people we have talked with prefer sausage over ears, we have changed our pricing accordingly. If you would rather pay according to the original agreement, let us know.
